2025

2024 has been a year of growth and transformation for our company.

The foundation of our organization has never been stronger as we completed \$3.8 billion in transactions. We reached new milestones that highlight the strength of our business, the dedication of our team, and our ability to deliver exceptional results across all fronts despite a challenging and uncertain economic environment.

In the past twelve months, we have made significant strides in our development effort with a total of 12,500 units in development. We currently have a total of 4,000 units actively under construction in New Jersey after breaking ground on 1,700 apartments across Monmouth County in Colts Neck, Long Branch, and Eatontown.

In addition to our active construction projects, we delivered 920 apartments to our operating platform and launched a new cornerstone brand, encompassing the high standard held at our multifamily properties. The first Livana properties in Fair Lawn and East Hanover were delivered in Q3 of this year and have set a new standard of elevated lifestyle among suburban multifamily offerings. In Florida, we opened the doors to 2000 Biscayne, the newest luxury residential building in Miami's Edgewater neighborhood. With a pipeline of new acquisitions and development approvals this year, we pushed forward in Florida with our developments in Hollywood, Fort Lauderdale, and Surfside while advancing in New Jersey in Livingston, Perth Amboy, and Atlantic City. Our development team continues to lay the groundwork for future growth.

We successfully capitalized our development pipeline, securing a total of \$1 billion of construction loans from various lenders. We secured a \$415 million loan for Monmouth Square, and a \$345 million loan for the second phase of 1 Journal Square, now known as The Journal. We are poised to add another 966 units to our growing portfolio in Q1 of 2025 when the first phase is delivered. These achievements underscore our relationships and ability to execute complex, high-value deals.

Glover House, the highest quality rental property in the heart of Georgetown in Washington D.C., embodies these capabilities. For this acquisition, we took an out-of-the-box approach to form a creative deal structure combining the fee and leasehold interests, thus unwinding a 50-year old ground lease, and creating value for all parties involved.

Despite the challenging office market environment, we achieved remarkable success securing OpenAI as an anchor tenant at The Puck Building, which is now 100% leased to long-term credit tenants. Leasing at Monmouth Square is on its way, with notable tenants such as Whole Foods, Felice, and Cava already on board.

This year has also demonstrated the power of our vertically integrated platform. Our ability to pivot and adapt to changing market conditions has proven invaluable as we focused on maintaining strong occupancy levels and managing our expenses efficiently. With everyone rowing in the same direction, our operational numbers are stronger than ever.

We further bolstered our executive team as we welcomed Jason Listhaus as our new General Counsel and promoted Isaac Buchler to EVP, Head of Operations. Their experience and leadership will continue to be instrumental as we navigate the next phase of our growth.

As we move into 2025, we are excited about the opportunities that lie ahead. The momentum we have built across the platform is a testament to our team and commitment to creating long-term value for our partners, lenders, and the communities in which we invest. With a clear vision and a united team, we are well-positioned to continue driving forward and achieving even greater success in the years to come.
